

# Creation

## Lesson 2 Presentation & Homework

This image is from the Hubble Space Telescope. It is capturing amazing images of God's creation in space!

Here is a diagram of an atom. A molecule is a collection of atoms which make up the building blocks of all matter!

**PRESENTATION:** (Take notes here on Pastor Doria's teaching on Wednesday night)

---

---

---

---

---

---

---

---

---

---

---

---

**HOMEWORK (Complete before Sunday morning's class)**

- 1) Read through Genesis 1 – 2. List three details you find interesting. Be ready to share them in Sunday's class.

---

---

---

---

- 2) Watch this video: <https://answersingenesis.org/evidence-for-creation/> a couple times and write down three things you find interesting. Be ready to share them in Sunday's class.

---

---

---

---

- 3) Why do you think people have such a hard time believing God created the universe?

---

---

---

---

- 4) Ask your parents or a friend question #3 above and write down their response.

---

---

---

---

**Note:** Did you download the *Genesis Apologetics* app yet??? See last week's link to cool info on Creation, Dinosaurs, and more!

- 5) Watch *another* video (at least one) in the *Genesis Apologetics* app and share a few details in class Sunday. Be sure to write down the name of the video as well. Use the following space to write down some of the interesting details.

---

---

---

---

---

---

---

---

---

---

6) What questions do you have about Creation?

---

---

---

---

---

---

---

---

---

---

**Memorize:** Be sure to know the Old Testament books and Genesis 1:1 by the end of the month. It will be part of your quiz. 😊 Practice writing Genesis 1:1 here:
